Ideal for hiking, travel, skiing, and everyday adventures.

TECHNICAL SKI PANTS

Designed for Mobility & Protection

STYLE: KP-4102

Water-Resistant Construction

Premium fabric repels water and keeps you dry in snow and wet conditions.

Reinforced Knee Structure

Ergonomic knee shaping with reinforced panels for durability.

All-Mountain Mobility

Articulated design provides maximum freedom of movement on any terrain.

Adjustable Waist

Hook-and-loop tabs allow a secure, custom fit at the waist.

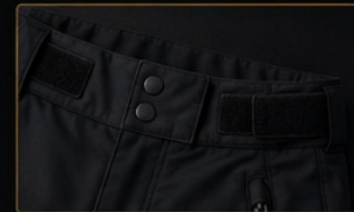

Snow Gaiter Ready

Built-in gaiter hooks prevent snow from entering your boots.

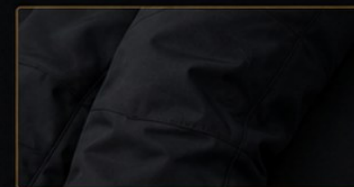

Durable Fabric

High-performance fabric resists tears, abrasions, and harsh conditions.

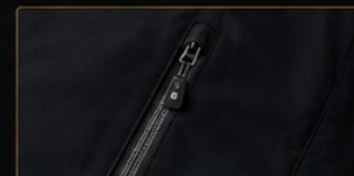

ADJUSTABLE WAIST

Hook-and-loop tabs for a secure, personalized fit.

REINFORCED KNEE

Ergonomic shaping with durable reinforcement.

ZIP POCKETS

Water-resistant zippers protect essentials.

SNOW GAITER CUFF

Elastic gaiter keeps snow out and warmth in.

MOUNTAINEERING PANTS

Functional Bottoms for Harsh Conditions

Built for high-altitude missions and extreme terrain, these pants deliver rugged durability, weather protection, and unrestricted movement.

STYLE: KP-4108

Durable Technical Fabric
Tear-resistant material built to withstand abrasion and rough terrain.

Secure Pocket Design
Multiple zip pockets keep essentials safe and accessible on the move.

Adjustable Hem
Drawcord cuffs fit over boots and keep out snow and wind.

Ergonomic Fit
Articulated knees and a tailored cut for enhanced mobility and comfort.

Cold-Weather Readiness
Insulating and wind-blocking for reliable warmth in harsh environments.

Versatile Mountain Use
Ideal for mountaineering, trekking, climbing, and expedition travel.
